Aromatherapy Consultant Speaks at Soap and Toiletries Gathering

April 23, 2001 — Marge Clark, founder and CEO of Nature's Gift, Inc., was the keynote speaker at the third annual gathering of the Southeast Association of Soapmakers, held in Greensboro NC on April 21, 2001. Clark addressed the skincare benefits of using pure, therapeutic quality essential oils in "leave on" products such as lotions, creams and balms, and safety issues involved in the use of these concentrated healing essences. Close to 100 attendees received information concerning effective aromatherapy treatments for various skin types and conditions, and a listing of the skincare benefits and safety factors of more than 110 essential oils.

Nature's Gift is also pleased to announce that it is featured in the May 2001 issue of Self Magazine. In an article on creating your own oil based and solid perfumes, Nature's Gift, Inc. is the recommended supplier for materials needed to make your own perfumes.

Writes Daryl Chen, in "Make Your Own Perfume," "The materials will cost you about \$32 in any health food store (or surf over to www.naturesgift.com). Says Marge Clark, founder and President of Nature's Gift, "I don't know how to get in touch with Daryl Chen, but I'd like to send her a dozen roses!"

Nature's Gift, Inc., founded in 1995, specializes in sourcing and making available pure, highest quality organically produced and ethically wildcrafted essential oils.
