**Certificate of Analysis:** Sandalwood Seed CO<sub>2</sub> Extract, *Santalum spicatum*, extracted from organically grown seeds, Australia.

Batch No: AU-10697

Certification Date: 6 February 2015

Part of Plant Used: Kernel of *Santalum spicatum*

Extraction Method: Super critical fluid extraction (CO<sub>2</sub>)

INCI Name: Santalum Spicatum Seed Oil

Appearance: A clear, yellow to golden-yellow, transparent liquid

Odor: Very mild nutty aroma, reminiscent of Sandalwood essential oil

Specific Gravity (20°C): 0.9196

Moisture Content: 0.093% w/w

Acid Value: 4.2mg KOH/g

Peroxide Value: 1.6meq O<sub>2</sub>/kg

Major Chemical Constituents:

Components:	Result (%):
palmitic acid C16:0	3.34
palmitoleic acid C16:1	0.34
stearic acid C18:0	1.24
oleic acid C18:1	54.56
linoleic acid C18:2	0.41
α-linoleic acid C18:3	2.19
stearolic acid C18:1	1.21
ximenynic acid C18:2	33.87

Date of Manufacture: June 2014

Date of Expiry: June 2018 based on proper storage conditions. Beyond four (4) years, retest at six monthly intervals against Product Specifications.
